

## Seri.co Certified Fabrics

TESEO has been working towards the respect for environmental balance for years. Thanks to the **Seri.co certification**, which certifies the majority of our production, TESEO for years has been providing maximum guarantees on the production process, certifying the absence of toxic or harmful substances for the end-user.

### What is SERI.CO?

Seri.co is a **product and process certification system** based on a Disciplinary, whose application by Companies aims to provide maximum guarantees on the environment, sustainability, social responsibility and chemical risk management.

### What does Seri.co certify?

The Seri.co certificate guarantees the respect of environmental and social standards, in order to protect the silk products with their tradition of quality and creativity, ultimately protecting the final consumer:

- ✓ the **production process** in compliance with the principles of quality, guaranteeing top performance standards of the finished product;
- ✓ the quality of the **textile product**, both for the technical and performance properties and for the eco-toxicological properties;
- ✓ non-use of harmful substances in the production process, to protect the **health and safety** of the workers, the consumers, and the whole community the Company operates in;
- ✓ the eco-toxicological properties of the **chemical / formulated / dyeing products**;
- ✓ production processes **Made in Italy**
- ✓ **Ethical Code of Conduct** covering the highest social responsibility and professional standards
- ✓ **Environmental Protection Code** including the active control of environmental impact on water, air & soil.
