Environmental Policy

TESEO (Tessitura Serica di Olmeda, with registered office in: via Leopardi 33, Grandate, CO), for years has undertaken a certification process for the environmental sustainability of its products and is committed to preventing pollution, guaranteeing the environmental protection and to pursue the continuous improvement of the Company's environmental performance by minimizing the risks related to the activities carried out in its production.

In particular, the Company undertakes to:

- comply with current legislation and any voluntary agreements regarding its significant environmental impacts;
- carry out a continuous control of the production process and monitor the related environmental aspects, in particular the consumption of water and energy and the production of waste and effluents;
- define objectives and adopt operational procedures and / or practices in order to reduce energy consumption;
- adopt procedures and / or operational practices aimed at minimizing the production of waste and effluents;
- monitor the use of chemical products together with its suppliers (especially dry cleaners), both in reference to the health and safety of workers and the external environment, and the content of dangerous or prohibited substances in the processed items. This goal is particularly pursued through careful selection and evaluation of suppliers;
- provide company personnel with adequate training on relevant environmental aspects;
- adopt an improvement program.

The Company also undertakes to provide the necessary technical, economic and professional resources so that the objectives of the environmental policy are fully achieved.

This Environmental Policy is disseminated at all levels and it is everyone's responsibility to actively collaborate, as far as they are concerned, in improving the management of environmental aspects.

The Company guarantees, through subsequent verification activities that this policy is understood and implemented and that the stated objectives are pursued.
